

HM NETWORK LUMINA SPARK RECOMMENDATION

"Louisa has really helped my business partner and I work closer. We do have common interests and have always got on well, but we clearly have different personalities and traits.

The workshop Louisa ran with us helped identify and recognise our individual strengths and show therefore where we thrive. On the flip it also showed the areas we were not as strong.

Doing the Lumina activities has enabled us to see things from each other's perspectives. It has helped us work closer and understand each other better.

Being able to see our own strengths and weaknesses visually in glorious technicolour makes complete sense.

We have now aligned our roles in our business to make better use of our own qualities.

We highly recommend working with Louisa, she is fantastic"
